

Rupert Murdoch'S New York Post fixed the front page photo to give French and German U.N. representatives the heads of weasels. Murdoch's Fox News is notoriously jingoistic and unbalanced. Clear Channel Radio Corporation sponsors pro-war rallies through its stations. These are matters of fact. To allow such corporations to further dominate channels of communication only gives them more power to monopolize and distort robust, wide-ranging public discourse. The FCC should maintain present limits or expand them to further diversify communications ownership.
